PROFESSIONAL EXPERIENCE

Full Stack Developer — TechNova Solutions | July 2024 – Present

- Developed and maintained scalable full-stack applications using React.js, Spring Boot, Node.js, and PostgreSQL.
- Designed RESTful APIs, implemented JWT authentication, and introduced role-based access control.
- Improved database query performance through indexing, query optimization, and schema refinement.
- Built reusable UI components and responsive interfaces with React and Tailwind CSS.
- Containerized services with Docker and supported deployments on AWS-based environments.
- Worked with Git/GitHub, Postman, Jira-style Agile workflows, code reviews, and CI/CD practices.

Software Development Intern — WebSphere Labs | Jan 2024 – Jun 2024

- Assisted in developing REST APIs and frontend modules for internal business applications.
- Created SQL queries, fixed bugs, wrote API test cases, and collaborated with senior developers during sprint cycles.

PROJECTS

E-Commerce Platform — React.js, Node.js, Express.js, MongoDB

- Built a complete shopping platform with authentication, product search, cart, orders, admin dashboard, and payment API integration.

Task Management System — React.js, Spring Boot, MySQL

- Developed a multi-user task manager with CRUD operations, project assignment, role-based access, filtering, sorting, and pagination.

Real-Time Chat Application — React.js, Node.js, Socket.io, MongoDB

- Created a real-time chat application supporting private/group conversations, online status, notifications, and message persistence.
